

Anderson's Bay School Pillars

Respectful—Respectful Children are respectful of themselves, others and their community. Respectful children are well-mannered, caring, responsible and helpful.

Responsible—Responsible Children make good decisions, for themselves and others, demonstrating a caring disposition towards their community and others.

Resilient—Resilient Children are able to approach challenge and success with a toolbox of strategies, enabling them to overcome challenge and setbacks with a positive attitude.

Reflective—Reflective Children reflect on their own learning and behaviour, drawing on personal knowledge, experiences and intuitions, setting goals and planning next steps.

New Children At Anderson's Bay School

We would like to welcome Freya, Isla and Zachary to Anderson's Bay School. It is wonderful to have you joining us.

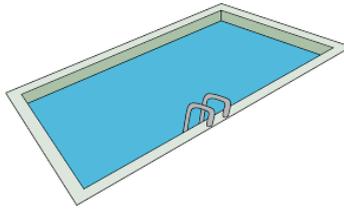

Assembly Programme

Week	Classes
	Running Assembly
8 24/3	R2/R11
9 31/3	NT/R1/R10
10 7/4	Dance Week Performance
11	No Assembly

Anderson's Bay School Pool Open on Saturdays

The School pool will be open Saturdays 1-3pm. Children must be accompanied by an adult. Please bring a gold coin per swimmer for pool entry.

Term Two Sports

To register for a Term two sport, please click on the link below. Registrations close Wednesday 29th March. Hover your mouse over the link = Ctrl + Click to follow link

Goal Setting Interviews

Parent/Teacher goal setting interviews are scheduled for Thursday, 30 March, beginning at 2:10 p m for parents of Years 4 – 6 children. These interviews are an important opportunity for parents and teachers to meet to discuss specific academic and/or social objectives for the year ahead. For children in Years 1, 2, and 3 you will be invited to come in for an interview and discussion following your child's Anniversary Reporting cycle. Therefore, for children in Rooms 5, 6, 7 and 8 only the children who are Year 4 in these Year 3/4 composite classes will have an interview scheduled for 30th March.

We will be using a secure, web-based service, which allows parents to book an exact interview time using any computer connected to the internet.

Bookings for interviews opened Monday 13th March and can be made at the website <http://www.schoolinterviews.co.nz> using the school code **vkeff**. Although the vast majority of parents will be able to access the web from a home computer, a friend's computer or a workplace computer parents may telephone or call into the office over the next week to arrange bookings through the school office.

Children will remain at school on the Thursday until the normal time of 3pm.

The goal setting sheet has been sent to you separately.

Playground Monitoring Procedures

As part of the internal review processes of our school we are constantly assessing and adjusting our practice to ensure that we have the best systems and processes in place. Recently we have refined and adapted our morning tea and lunchtime procedures.

During morning tea and lunchtimes children are monitored by three duty teachers, who are stationed at different sections of the school. The duty teachers wear bright orange vests, so that they are easily identified by children, should they need any help. During the duty time teachers engage with children monitoring games being played and ensuring that the behaviour of children is appropriate. As a school, we like to focus on the positive, with much of our time reinforcing the fantastic behavioural choices of children. This may be in the form of an acknowledgement of the way children are playing or by allocating an "Absolute Best Voucher", which goes into the Absolute Best box, which is then drawn from on Monday morning assembly, when three children are drawn from the box to have morning tea with Mr McDonald.

At times, however, children do make choices which lead to inappropriate behaviour, which is then followed up by the duty teacher, Deputy Principal or Principal. In the case of an incident requiring follow up, we note down the names of children involved in this incident to identify any ongoing concerns we may have. Should children continue to be displaying inappropriate behaviour the following steps are taken:

- If children are in the incident log twice in a term, as appearing to be responsible for inappropriate behaviour the Deputy Principal or Principal will discuss this behaviour identifying what the next step will be.
- If children are then in a third time, as appearing to be responsible for inappropriate behaviour, they will be removed from the playground for a morning tea and lunch slot
- If children are in a fourth time, as appearing to be responsible for inappropriate behaviour, the Deputy Principal or Principal will notify parents of incidents in playground and children will be removed from playground for two consecutive days
- If children are in a fifth time, as appearing to be responsible for inappropriate behaviour, a meeting will be arranged with parents to discuss ongoing behavioural issues and possible next steps. Children will be removed from playground for a week.

Anderson's Bay School PTA Futsal Evening

FUTSAL

FRIDAY 12TH MAY

FAMILY FUTSAL AND PICNIC

5.30pm – 7.00 pm

Bring along some takeaways or a picnic and your families and join us at the Edgar Centre for a relaxed fun evening of Futsal.

Edgar Centre
Porstmouth Drive

5.30 – 7.00 pm

Bring your family

Bring your tea

Have fun playing
futsal and being
with your peers

Organised by Andersons Bay
PTA for students and their
families.

Any queries please email
pta@andybay.ac.nz

Healthy Children Leads to a Healthy School

During the past weeks we have noticed that children are starting to show signs of a few bugs, coughs, colds and flu like symptoms. Below are some guidelines from our Public Health Nurse, outlining when children should remain at home.

WHEN TO KEEP YOUR CHILD AT HOME

When your child:

- Has signs of being unwell i.e. grizzly, unsettled, listless or tired
- Has a high temperature or appears very hot
- Is complaining of, or appears to have a sore tummy, throat or ears
- Has a continuous cough
- ***Should be at home if has had diarrhoea and vomiting within the last 48 hours***
 - ***Please note that if your child has had vomiting or diarrhoea and do return to school within 48 hours they may be sent straight back home. This is a measure that is in place to limit the spreading of this form of illness.***
- Has weeping, red eyes and/or a yellow discharge around the eyes
- Has broken skin sores.
- Has become ill with a communicable disease e.g. measles, chickenpox.

If you are unsure, call your child's School or Public Health Nurse.

Please inform your School if your child is going to be kept home due to illness.

The Ministry of Health infectious diseases poster can be downloaded by clicking on the image below. This poster identifies the treatment, symptoms and time that children should remain away from school.

Distances / Course

Year 1-2

Run = 1 lap on the top field, down to Barkleys

- 300m

Scooter = From the hall down to the pool

- 150m

Swim = 1 length

- 14m

Year 3-4

Bike = 2 laps on top field

- 380m

Run = Top field to the pool

- 450m

Swim = 3 lengths

- 42m

Year 5-6

Bike = 3 laps on top field

- 580m

Run = From top field to the pool

- 450m

Swim = 5 lengths

- 70m

Headlice at Schools

TO prevent HEADLICE AND reduce THE SPREAD

It is impossible to prevent headlice completely because they are common in the community and children often come in contact with each other at school and at other activities.

- Brush hair every evening. This may help kill or injure lice and stop them from laying eggs. Bend the head forward with hair hanging down. Brush hair with a firm bristled brush from scalp outwards, especially around the hairline behind the ears and the back of the neck.
- Don't share brushes and combs. Everyone in the family should use their own brush and comb.

Because lice do not live beyond 48 hours it is rarely necessary for additional washing and cleaning of other articles.

- Children should hang their clothes on their own hook at school.
- Children should keep their clothes apart from other children's in swimming changing sheds.
- If LIVE lice or eggs are found:
 - check everyone in the house
 - tell friends and other contacts of your child at school or preschool.
- Treat all affected family members at the same time. This may minimise chance of re-infestation.

The CHECKLIST

- Check every week. During outbreaks check daily after live headlice are found and treated.
- Brush hair every evening to reduce headlice numbers.
- Treat if you find LIVE insects or eggs within 1cm of the scalp.
- Treat using a shampoo from your chemist. Repeat a week later.
- Ask your chemist for advice and information.

ReSCHOOLS

When your child is treated for headlice, alert school contacts and friends. If there is a headlice outbreak, the school may inform parents and caregivers, or send information home to remind parents about headlice.

Children should not be excluded from school because of headlice.

If headlice are a particular problem in any school the public health nurse may assist the school to provide information and advice to parents.

Headlice FACTS

MINISTRY OF HEALTH
www.moh.govt.nz

Revised May 2006. Reprinted November 2006. Code 4189

Headlice **FACTS**

Headlice are a common problem all over the world. They are small, flat insects about 2 – 3mm long that breed all year round.

Headlice:

- live on the human scalp – which provides food and warmth for their eggs to hatch
- feed on human blood through the scalp 5 or 6 times a day
- cannot jump, fly or swim
- do not carry disease
- remain on the head after swimming or bathing/showering.

Headlice may cause itching, but do not usually cause disease. Occasionally scalp infections requiring treatment may develop.

Life **CYCLE**

Female lice lay about 7 – 10 eggs each night. Eggs are laid close to the scalp. Each egg is firmly glued to a hair.

The eggs (nits) are small and hard (like a grain of salt) and are normally pale grey in colour. After hatching, the nits (empty egg cases) are white.

Eggs hatch in 9 days and a louse will live for 40 days.

Headlice are sometimes given other names like 'nits', 'kuts', 'kutu bugs' or 'headlouse'.

Looking **FOR** HEADLICE

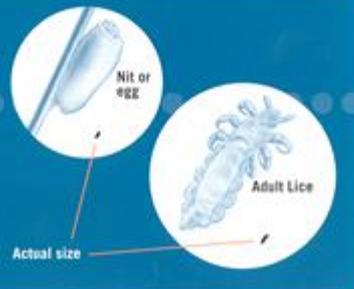

In school-age children check for headlice regularly once a week.

Look over the scalp for insects or eggs, especially:

- around the hairline at the back of the neck
- behind the ears
- on the crown.

Use a fine-tooth comb on wet hair to find lice. Scratch marks or a rash can be a sign that your child has headlice. Not all children complain of itchy heads.

Eggs are laid next to the scalp and hair grows about 1cm a month. Therefore any eggs found more than 1cm from the scalp will have hatched and died. You can remove these eggs. You do not need to treat again if treatment is completed.

When **TO** TREAT

- If you find a LIVE insect on the scalp
- If you find eggs within 1 cm of the scalp.

How **TO** TREAT

Speak to your pharmacist/doctor/or practice nurse for advice about what treatment to use and how to use it.

You need a special shampoo or lotion (containing insecticide) available only from your chemist or doctor to kill both the insects and eggs.

Always follow the manufacturer's recommendations supplied with individual treatments. Some treatments are used twice, 7 – 10 days apart.

After using shampoo, dead eggs are left. Treatments and combs will not remove dead eggs. The eggs can each be removed between finger and thumb. Vinegar may help to loosen the glue the eggs are held on with, but will not kill them. Recheck your children's heads after a week and make sure they brush their hair every night.

Wet combing may be effective if done properly. Herbal treatments and remedies may be effective. Talk to the pharmacy, your doctor or public health nurse for advice.

What **DOES NOT** WORK

Ordinary shampoo or soap will not kill headlice.

DO **NOT** Use

Flyspray, kerosene or animal remedies, as these may harm children.

Anderson's Bay School Fair

It is fair year!!!! Our fair is on the 17th September, between 11 am and 2 pm. This is not only our main fundraising event for the year (this time working towards upgrading our shading and seating around the school) but also an amazing way to bring together our local community for a day full of fun!

We would love to have as many families participating as possible! You can get involved as much as you wish, as there are big and little jobs to be done!

Come and share your expertise, passion, time and fun with us! For more information regarding stalls and different ways to help please contact the PTA Fair Committee via pta@andybay.ac.nz

Community Notices

Community Oral Health Service

Children (from birth to the end of year 8)

Children* are entitled to FREE basic dental care, from birth until they begin high school. Free basic dental care is available at Community Oral Health fixed [clinics](#) and mobile dental units throughout the Southern District.

The Service is run by *appointment only*. We would like parents/guardians to attend all appointments with their child as Dental Therapists provide parents with valuable advice to support their children's good oral health.

If your child is already enrolled with the Service we will contact you to make an appointment. If your child is not enrolled, you are unsure or new to the area, please call:

Otago 0800 672 543 or Southland 0800 570 300 – both numbers are free to call from cell phones

For more information visit: <http://www.southerndhb.govt.nz/pages/community-oral-health-service/>

Find us on Facebook **Talkteeth – Southern**

*who meet the [eligibility criteria](#) for publicly funded health and disability services

Adolescent Oral Health Service

Adolescents (from year 9 until their 18th birthday)

Adolescents* are entitled to FREE basic dental care, from Year 9 until their 18th birthday – no matter where you're at... high school, training course, work or unemployed.

Free basic dental care is available by enrolling with a Dentist. This is usually arranged at the child's last dental visit with the Community Oral Health Service in school year 8. The chosen Dentist should contact you directly to make an appointment.

If you need to enrol, or have any questions please call:

0800 825 583 – option 2

For more information visit: <http://www.southerndhb.govt.nz/pages/adolescent-oral-health-service/>
